Numb. 1951

The London Gazette.

Published by Authority.

From Monday July 28. to Thursday July 31. 1684.

Madrid, July 20.

ON the 11th Instant arrived here three several Couriers, one from the Marquis *de Grana*, Governor of the Spanish Netherlands, and the two others from the Dutch Ambassador at *Paris* to the Heer *Van Heemskerke*, the States Ambassador here, being all sent on the occasion of the Treaty concluded the 29th of the last Month at the *Hague*; Upon which the said Ambassador gave in a Memorial the next day; and the 16th had an Audience of the King; and the same day an Express was dispatched from hence to the Imperial Court at *Lintz*. By Letters of the second Instant from *Cadiz*, we have advice, That the *Saphire* Frigat Captain *Hastings*, was just then come into that Bay with the *Rose* of *Sally* of 18 Guns, and a Dutch Dogger Prize he found in her possession; The Moorish Captain was killed in the Fight, and Captain *Hastings* lost two Men and had 16 wounded; He had before forced ashore the Admiral of *Sally* of 26 Guns near *Mamora*, taking the Captain and 33 Moors prisoners, and giving liberty to 44 Christians.

Genoua, July 15. This week arrived here the *Margaret* in nine days from *Marseilles*. We have no fresh News of the Spanish Gallies and those of this State. The French Fleet, according to the last advice we had, was still in the Bay of *Roses*.

Venice, July 16. Several Troops are arrived at *Lido*, which have been raised on the *Terra Firma*, and will be transported to *Dalmatia*, whither great quantity of Ammunition and Privisions have been sent as well for the supply of the Troops of this State, as the Morlaques who continue very much to annoy the Enemy. We have advice of a great Commotion in *Albania*, occasioned by the coming thither of an Aga to raise Men for the War; and that a great many Families were retired from thence into the Territories of this State. The Sieur *Molino* is arrived in the *Archipelago* with the Squadron of Men of War and Gallies under his command; and by a Barque arrived from *Zant* we are informed, that General *Morosini* was past by that Island taking his Course towards the *Levant*; so that we are now in a continual expectation to hear of some action. The Sieur *Ambrosio Bembo* is appointed to Cruise with a small Squadron in the *Golfe* to free it from Pyrates.

Moscow, June 9. The Baron *Blomberg* and the Baron *Zierowski*, Ambassadors from the Emperor, have since their arrival at this Court had several Conferences with the Commissioners appointed by the Czars to treat with them, but finding little disposition in these Ministers to enter into the League against the Turks, they resolved to return home, and accordingly had their Audience of leave of the Czars the last week; But two days agone arrived here an Express from *Smolensko*, who acquainted the said Ambassadors, that a Gentleman was arrived there with Dispatches from the Emperor and the King of *Poland*, and brought them Orders to stop in whatever place the said Express should find them, till the said Gentleman was come to them; which makes us believe that the Emperor and the King of *Poland* have sent these Ambassadors instructions to make new Proposals to the Czars to induce them to enter into the said League. The Ambassadors of *Sweden* having performed their Commission here, which was to assist at the Solemnity of the Czars Swearing the Peace between the two Crowns, are on their departure, having been presented with Furrs to a considerable value.

Dantzicke, July 20. Our last Letters from *Cracow* inform us, that the King of *Poland* was gone from *Jawarow* to *Zolkiew* to receive there the Sieur *Morosini*, Ambassador Extraordinary from the Republick of *Venice*, and that from thence his Majesty intended to go to the Army, which was marching towards *Podolia*. From *Moscow* they write, that the Emperor's Ambassadors have not been able to dispose that Court to engage in the War against the Turks, those Ministers pretending that their affairs at home are in a condition that will not permit them to enter into such kind of Engagements for the present.

Vienna, July 22. The report of the taking of the Castle of *Mongatz* in *Upper-Hungary* by the Baron *de Saponara*, who is said to have had an Intelligence with the Governor, comes to us from several hands, but we cannot however give any credit to it. We are every hour expecting the news of the taking of *Buda*; Our last Letters from the Imperial Camp gave us an account, that they were lodged in the Ditch, and had fixed their Miners to the Wall of the Upper Town, and that the Duke of *Lorrain* having received advice, that a considerable Body of Turks was posted three or four miles from *Buda*, he was resolved to go and fight them. Our last Letters from *Cracow* told us, that the King of *Poland* was upon his departure from *Jawarow*; and that the Troops of *Lithuania* were on their march to joyn the Forces of *Poland*, and that together they would make near 50000 men.

Lintz, July 24. All things are preparing for the Courts removal from hence. The Elector of *Bavaria* is expected here in few days, and the general opinion is, he will go for *Hungary*, whither part of his Troops will be sent to reinforce the Imperial Army, which is said to be at present about 40000 strong. What hath been reported of the taking of the Castle of *Mongatz* and the burning the Bridge of *Essecke* by Count *Leslie*, is not confirmed; but we are informed that the said Count has Orders sent him to joyn the Duke of *Lorrain*, it being thought necessary to strengthen the Imperial Army, that it may be able to oppose the Enemy in case they should make an effort to relieve *Buda*. The Emperor, we are told, has received Letters from Count *Wallestain*, his Ambassador at the Court of *Poland*, giving his Imperial Majesty an account, that the Forces of that Kingdom were actually on their march, and that the King would be at the head of them before the 25th of this Month.

Hamburg, July 28. The King of *Denmarke* parted the last week from *Itzeboe*, and is now at

Gottorp
